

CORPORATE PARTNERS

Letter of Consideration

Greetings,

My name is Stephen A Mosely, Chief Operations Officer of "THE BREEZE" radio station in Port Arthur, Texas - in City Hall. I am spearheading the development of our City's new downtown revitalization project called the Downtown Business District (D.B.D.) in downtown Port Arthur, Texas. The scheduled start date is January 1,2008.

This will be a very exciting time in our City's history and wherein, your company will receive the praise and admiration from our entire city because of your involvement and commitment to this once in a lifetime project.

With anticipation of some 20,000 or more residents expected to call Port Arthur home; they will be looking for services and entertainment activities for their family and friends and your company can be right there where the action will be... in the **D.B.D.** Our partners are very encouraged and excited about this venture and we hope that you will be also.

This complex will help to uplift our area's youth and will be a fantastic location for new entrepreneurial business startup opportunities. Visualize the enormous popularity your company will enjoy by partnering with us.

This facility will ultimately benefit generations of families for years to come. Just think, thousands of people, tourists near and far, will one day share a similar story with their friends and relatives about a fantastic must see destination stop in Port Arthur, Texas.

"It's really a nice place to take your family for fun and entertainment With a unique and diverse culture of people who seem to get along well, it's easy to see how their local industry and business partners work together to support their community. They really know how to make things happen here in Port Arthur, Texas I"

***Thanks, Port Arthur
Visitor!***
